

To All Virtual Attendees: We at NACSW would like to point out an amazing benefit that comes with your convention registration. As you may remember, NACSW usually has a tote bag that comes with each convention registration, we are raising the bar with our **Virtual Tote Bag of prerecorded workshops**. With NACSW's convention platform all registered attendees will have access to their account 90 days **after** the convention. Each registered virtual attendee will have access to over 40 prerecorded workshops *during and after* the convention. You may ask is this a big deal? It sure is! Each registered virtual attendee can watch and obtain CEs on workshops you may have missed the first time around – there is no limit.

In addition, each registered virtual attendee will have the opportunity to view the **NACSW Virtual Convention Lecture Series**, over 40 live remote sessions, plenary and keynote speakers' sessions will be uploaded post- convention, accessible to you anytime during the 90 days, please note these are **CE worthy DURING the convention only** so plan accordingly. When you are making your scheduling plans and you wish to get the most CEs it is beneficial for you to watch the live remote sessions *first*, obtain your CEs. Once you feel you may be done for that particular day, you can go back that day or after the convention to view the prerecorded workshops and obtain more CEs. It's a win/win!

We hope you enjoy our first ever NACSW Virtual Convention 2020.
